## Proper Preparation

I'll start off by saying, I'm not fucking dooming/doubting/giving up on POTUS. Quite the opposite actually. I know the mods have hinted towards building community/state sites, and they very well might be working on that right now (maybe that's why they asked for apps), but we have to be prepared to take action immediately. This requires a lot more than words, high meme energy, guessing what the next legal move is (although all of those things are essential to morale). It requires adequate **COMMUNICATION, ORGANIZATION** and **\*PREPARATION**. That being said, there needs to be a concerted effort on this site to help accomplish this goal. Taking back our country could very well be left in our hands, we have to make sure we do not drop the ball.

I would rather die 1,000 deaths than see this country run by dirty commie bastards. Let us be prepared!

▼ 100% agree. Prep for the day of Capitol Demands, we make demands and if they attempt to seize our weapons then we fight. If all else fails, we go Jan. 20
